Code	Operation Name	Operation Contents
30	SC Call	Auto Report When SC occurs
31	Manual Call	Auto Report When Manual Switch is depressed
32	Alarm Transmission	Auto Report When Alarm occurs
22	Block billing operation	Auto Report of reaching Block Billing Number of Sheet
02	Data Read	Read inside Data of PPC
04	Data Write	Rewrite Inside Data of PPC
03	Execute	Remotely Execute Test etc
08	Device Code Confirming operation	Operation for Checking Communication Function

Fig. 11

Code	Data length	Contents
Information Code	11	Code indicating specific Information kind
Data Section Digit	2	Data length of following Data Section. Represent using ASCII Code. 00 When no Data Section.
Data Section	Changeable length	Data of contents of each Information code. No Field when Data Section Digit Number is 00.
